

CLAIMS

What is claimed is:

- 1 1. A method for creating a finalized document, comprising the steps of:
2 allowing the negotiation of terms of an agreement between a buyer and a
3 seller;
- 4 (b) displaying a form detailing the negotiations of the terms;
- 5 (c) permitting the digital signature of the form detailing the negotiations of the
6 terms;
- 7 (d) organizing and storing documents supporting the form; and
- 8 (e) initiating payment to the seller only after receiving a verification of credit of
9 the buyer.
- 1 2. A method as recited in claim 1, wherein the form includes a first section
2 indicating the terms, a second section for allowing the buyer to sign off on
3 the terms, and a third section for allowing the seller to sign off on the terms.
- 1 3. A method as recited in claim 1, wherein the form is displayed after the
2 negotiation of the terms in response to the selection of an icon.
- 1 4. A method as recited in claim 1, and further comprising the step of displaying
2 the documents supporting the form.
- 1 5. A method as recited in claim 1, and further comprising the step of
2 automatically sending the form to a database utilizing a network in response
3 to the buyer and seller finishing the signing of the form.
- 1 6. A method as recited in claim 1, wherein the payment is completed only after
2 checking the form and the receipt of payment authorization from the buyer.

- 1 7. A computer program embodied on a computer readable medium for creating
2 a finalized document, comprising:
 - 3 (a) a code segment for allowing the negotiation of terms of an agreement
4 between a buyer and a seller;
 - 5 (b) a code segment for displaying a form detailing the negotiations of the terms;
 - 6 (c) a code segment for permitting the digital signature of the form detailing the
7 negotiations of the terms;
 - 8 (d) a code segment for organizing and storing documents supporting the form;
9 and
 - 10 (e) a code segment for initiating payment to the seller only after receiving a
11 verification of credit of the buyer.
- 1 8. A computer program as recited in claim 7, wherein the form includes a first
2 section indicating the terms, a second section for allowing the buyer to sign
3 off on the terms, and a third section for allowing the seller to sign off on the
4 terms.
- 1 9. A computer program as recited in claim 7, wherein the form is displayed
2 after the negotiation of the terms in response to the selection of an icon.
- 1 10. A computer program as recited in claim 7, and further comprising a code
2 segment for displaying the documents supporting the form.
- 1 11. A computer program as recited in claim 7, and further comprising a code
2 segment for automatically sending the form to a database utilizing a network
3 in response to the buyer and seller finishing the signing of the form.
- 1 12. A computer program as recited in claim 7, wherein the payment is completed
2 only after checking the form and the receipt of payment authorization from
3 the buyer.
- 1 13. A system for creating a finalized document, comprising:

- 2 (a) logic for allowing the negotiation of terms of an agreement between a buyer
- 3 and a seller;
- 4 (b) logic for displaying a form detailing the negotiations of the terms;
- 5 (c) logic for permitting the digital signature of the form detailing the
- 6 negotiations of the terms;
- 7 (d) logic for organizing and storing documents supporting the form; and
- 8 (e) logic for initiating payment to the seller only after receiving a verification of
- 9 credit of the buyer.

1 14. A system as recited in claim 13, wherein the form includes a first section
2 indicating the terms, a second section for allowing the buyer to sign off on
3 the terms, and a third section for allowing the seller to sign off on the terms.

1 15. A system as recited in claim 13, wherein the form is displayed after the
2 negotiation of the terms in response to the selection of an icon.

1 16. A system as recited in claim 13, and further comprising logic for displaying
2 the documents supporting the form.

1 17. A system as recited in claim 13, and further comprising logic for
2 automatically sending the form to a database utilizing a network in response
3 to the buyer and seller finishing the signing of the form.

1 18. A system as recited in claim 13, wherein the payment is completed only after
2 checking the form and the receipt of payment authorization from the buyer.

A handwritten signature and initials, possibly reading 'adp' and 'BI', are written in the bottom left corner of the page.
